

A stream concern. Two hours to act.

Rill helps a monitoring team choose its next useful check and track what happens afterwards.

Shivam Gupta · Project creator

The work after a report

Citizen observations
City dashboards
Rehabilitation guidance

The Rill decision

Which check comes next?
Who owns the response?
What did the recheck find?

OneAquaHealth already offers collection and decision tools. Rill focuses on the fieldwork decision that follows.

A concern with a visible next step

OBSERVATION / LOCATION	VERIFICATION PRIORITY	STATUS	REPORTED
 Surface foam  Willow footbridge	• High priority	Needs review	Inês · scenario volunteer 30m ago
 Surface foam  Willow footbridge	• High priority	Needs review	Miguel · scenario volunteer 1h ago
 Surface foam  Willow footbridge	• High priority	Needs review	Ana · scenario volunteer 2h ago
 No visible concern · Wildlife seen  Upstream gardens	• Routine	Needs review	Miguel · scenario volunteer 1h ago

4 observations

Priority is a suggestion for follow-up, not a water safety score.

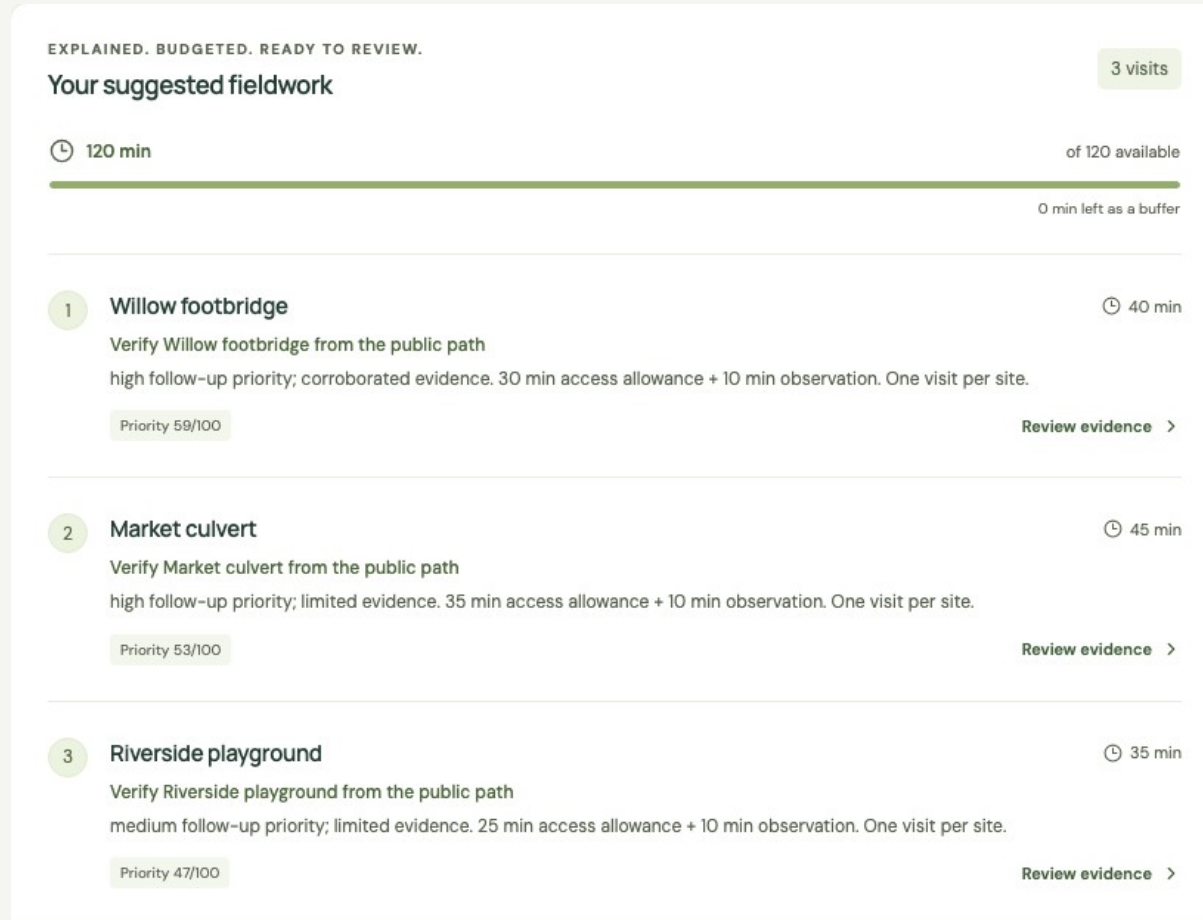

Observe

Describe the evidence and uncertainty.

Review

Record a human decision and recheck.

The next two hours

Other sites deferred

One Health, with honest uncertainty

Habitat

What changed
in the stream?

Animals

Where could wildlife
or pets encounter it?

People

How do people
use this place?

Visual signs justify investigation. Testing and qualified judgment establish what they mean.

Public-bank checks only. Follow local advice and access restrictions.

A working, inspectable system

Access	Authenticated workspaces and coordinator / volunteer roles
Evidence	Human review, historical decisions and a recheck gate
Deployment	Cloud Run API with PostgreSQL on Cloud SQL
Exchange	OAH directory, imports and environmental exports

The coordinator is the first customer

€149

per programme / month

Proposed managed subscription
Volunteers contribute free

Illustrative €50 delivery cost leaves
€99 before fixed overhead.

Pilot measures: time per report, assignment delay, completed rechecks, and safe coverage.

A value hypothesis

4 coordinator hours
× €40 assumed hourly cost
= €160 of monthly capacity

A checked outcome for every useful concern.

Seeking one monitoring programme
for a supervised pilot.
